

IEEE Region 5 Annual Conference
and Student Competitions
April 1-2, 2017 Denver, CO

Are your students competitive?

Being prepared to compete in an increasingly demanding world—in the classroom and in the workplace—is a challenging task for universities and students alike.

Next Spring's [IEEE Annual Region 5 Conference](#) provides your students the opportunity not only to compete against other Region 5 schools, but to develop technical skills and a personal brand that defines their individual talents and strengths. **The Conference competitions are designed to encourage the development of skills and abilities in two areas critical to success in engineering environments:**

**Agility under Pressure –
Work in Teams to Create Solutions in Time-Driven, Real World Situations.**

Circuit Design

- Two-student teams will be challenged to solve a technical problem provided to teams on day of competition. For details visit [Circuit Design Competition](#).
- [Team Participation Interest Form](#) must be submitted by **March 1, 2017**. Please note that the competition is limited to the first 20 teams to register.
- One team per student chapter is allowed unless there are open slots available after the deadline. In such cases, date of Intent to Register submission will determine the order open slots will be filled.

Student Ethics

- Two-student teams present and defend a case analysis using the IEEE Code of Ethics. For information go to [Ethics Competition](#).
- Space is limited to first ten teams to register. See website for details.
- [Team Participation Interest Form](#) must be submitted by **March 23, 2017**.

**Project-Oriented Design –
Design, Build, Construct an Argument, Compete. Use as Senior Design Project.**

Robotics

- Teams of 2-5 undergraduate students who are enrolled within Region 5 will build an autonomous robot to map a tunnel network and investigate “buried caches”. Cash prizes will be awarded for 1st – 5th places. Visit [Robotics Competition](#) for details.
- **Students can request to join Q&A Forum at [Sign up](#)**
- [Intent to Compete Form](#) must be submitted by **March 10, 2017**

Student Papers

- Includes an oral presentation and written paper related to technical, engineering, management, or societal aspects of subjects relevant to the IEEE.
- Competitions occur at Local, Area, and Region levels. Top three winners of each Area compete at Region Competition. For details visit [Student Papers Competition](#).

IEEE Region 5 Annual Conference
and Student Competitions
April 1-2, 2017 Denver, CO

*Sign up now. Number of teams is limited and early registration has its benefits.
Cash awards for winning teams.*
